Installation Support Conference Issues

Utilities Privatization

Utilities Privatization

Team Members

- Eric Halpin, Savannah District (Ft. Bragg)
- Adrian Gillespie, Southeast Region, IMA
- Curt Murdock, Huntsville Engineering and Support Center
- Dennis Calbreath, South Atlantic Division

Utilities Privatization

Objective – To recommend procedures to insure coordination of responsibilities of utilities privatization and installation development.

Action Plan

- Recommend business practice to incorporate responsibilities in planning and programming documentation. (1391s, master plans)
- Establish Privatization Coordination Team Meeting as standard procedure on major construction projects.
- Recommend review procedures and language considerations for privatization contracts.

Utilities Privatization

Accomplishments

- Utilities Privatization Project Management Plan completed and reviewed by Team Members – October 2002
- Posting of PMP and reference documents to PPDS – November 2002
- Development of resolution to specific issues raised at FY02 Installation Support Conference – ongoing

Utilities Privatization

Product Development

- Installation checklist to insure privatization issues resolved prior to completion of programming and planning documents.
- Recommendations to incorporate into the programming charrette responsibilities of various parties on utilities issues.
- Language development for utilities contracts that may insure resolution of utilities responsibility conflicts.

Brief the Customer

- Installation Support Conference – May 2003
